AMSP opens COVID-19 vaccines pre-orders for 55 African Union Member States

January 19, 2021

Joint Press Release

JOHANNESBURG, January 19, 2021 — Following the announcement by the African Union Chairperson, President Cyril Ramaphosa on the 14th of January 2021 that the African Union has secured a provisional 270 million COVID-19 vaccine doses for Africa through its COVID-19 African Vaccine Acquisition Task Team (AVATT), the Africa Medical Supplies Platform (AMSP), on behalf of the Africa Centres for Disease Control and Prevention (Africa CDC), today commences the COVID-19 vaccines pre-order programme for all African Union Member States. Afreximbank will facilitate payments by providing advance procurement commitment guarantees of up to US\$2 billion to the manufacturers on behalf of the Member States.

While AVATT has secured a provisional 270 million COVID-19 vaccines doses from Pfizer, Johnson & Johnson and AstraZeneca, AMSP – the single-source platform enabling faster, more transparent and cost-effective access to COVID-19 supplies – has opened today pre-orders, offering an equitable access of COVID-19 vaccines doses for 55 African Union member states.

English

critical times. For the first time in history, Africa has secured access to millions of vaccine doses in the middle of a pandemic as most of Western countries," said African Union Special Envoy Strive Masiyiwa.

"There is still a huge shortage of vaccine doses and that is why this continental collaboration has designed a fair allocation coupled with timely and equitable access of COVID-19 vaccines across the continent."

"Afreximbank is proud to expand its support to African economies in their bid to contain the pandemic. Our vaccine financing facility builds on the success of our Pandemic Trade Impact Mitigation Facility (PATIMFA) to open access to COVID 19 vaccines to African states based on a whole-of-Africa approach favoured by the African Union", said Prof. Benedict Oramah, President and Chairman of the Board of Directors of the African Export-Import Bank (Afreximbank). "By providing advance procurement commitment guarantees of up to US\$2 billion to candidate vaccine manufacturers, Afreximbank will ensure that African States are able to rapidly access COVID-19 vaccines, at competitive prices and in a timely manner thereby contributing to saving lives and livelihoods", he added.

To support vaccination operations, the Africa Medical Supplies Platform (AMSP) has also launched a new category on vaccine accessories which will help Member States to procure products such as ultra-low temperature freezers, personal protection equipment, cotton wool rolls, syringes and needles.

"The biggest challenges to COVID-19 vaccine access in Africa have been financing of the vaccines and the logistics of vaccinating at scale, but we are glad that this gap is being filled by the Afreximbank financing facility. The critical decision now is how to get started so that once we start there will be no disruptions and this is where AMSP will play a very big role," said Dr John Nkengasong, Director of Africa Centres for Disease Control and Prevention (Africa CDC).

"From today onwards African Union Member States will be able to start placing online pre orders for their vaccines allocation through the Africa Medical Supplies Platform," said Fatoumata Bâ, Founder & Executive Chair of Janngo and Managing Partner of Janngo Capital. "We are proud to participate in giving direct access to cutting edge COVID-19 vaccines through Africa. This is essential to protect our people and reopen our economies."

[About Afreximbank](#)

 English

Export-Import Bank (Afreximbank) is a Pan-African multilateral financial institution with the mandate of financing and promoting intra- and extra-African trade. Afrximbank was established in October 1993 and owned by African governments, the African Development Bank and other African multilateral financial institutions as well as African and non-African public and private investors. The Bank was established under two constitutive documents, an Agreement signed by member states, which confers on the Bank the status of an international organization, and a Charter signed by all Shareholders, which governs its corporate structure and operations. Afrximbank deploys innovative structures to deliver financing solutions that are supporting the transformation of the structure of Africa's trade, accelerating industrialization and intra-regional trade, thereby sustaining economic expansion in Africa. At the end of 2019, the Bank's total assets and guarantees stood at USD\$15.5 billion and its shareholders funds amounted to US\$2.8 billion. Voted "African Bank of the Year" in 2019, the Bank disbursed more than US\$38 billion between 2016 and 2020. Afrximbank has ratings assigned by GCR (international scale) (A-), Moody's (Baa1) and Fitch (BBB-). The Bank is headquartered in Cairo, Egypt.
